## Indivar InfoLabs IT Support Solutions:

### Support

Indivar InfoLabs is a client-centric and relationship-based company that proffers extended support while solutions get stabilized in the market.

## Process

The team at Indivar InfoLabs leads each project. As per the requirement of the document, analysis experts engender a detailed proposal document. On acceptance of proposal, the Software requirement specification is created by the analyst. The developers go through the same and a class solution is crafted & delivered.

### Engagement Model

The engagement model is usually on per project basis. A sturdy relationship with the client is established during the execution of the project. This takes into account the entire process, till the client is involved with us.

### Deployment/Delivery

As all the sections of the projects are created and integrated the source code of the project is provided with the opposite solutions.

### Code Sharing

Indivar InfoLabs reserves the right to retain a copy of the code, which in turn enables us to provide support readily due to the availability of it with us at any point of time.

### Deliverables

There would be different deliverables, depending on the phases of the project.

- Pre-sales: Details features listing and Proposal all documents.
- Post sales:- SRS document
- Graphics Design: All graphics designing (PSD) part is done by Indivar InfoLabs team.
- Web Development: All Web Development part is done by Indivar InfoLabs developer team.
- Source code:- After project closer sign off
